

# Face the Facts!

## SOFTUB

## ACRYLIC

### SITE PREP

All you need is a level surface - indoors or out. You don't have to spend extra for construction or a concrete pad.

Construction, excavation, or concrete pad sometimes necessary for permanent location.

### ELECTRIC

A Softub plugs into a regular household outlet. We also include a Ground Fault Indicator. All you do is plug it in.

Installation of extra amperage or 220V - 60amp line is normally needed. Additional GFCI purchase required.

### INSTALLATION

Delivery is quick and easy. One person can set up a Softub in just minutes!

Costly crew, placement, plumbing, electrician costs. Crane sometimes necessary.

### PORTABILITY

You can easily roll a Softub through a doorway, down stairs, or across a yard. The heaviest component weighs less than 95 pounds.

Cumbersome. Difficult or impossible to move. Typically 400-900 pounds.

### RELOCATE

A Softub is easily moved from spot to spot, home to home, indoors or out.

Usually not practical due to weight and site preparation.

### HEAT

For all their power and features, Softub spas are remarkably simple to operate. In a climate with an average 65° temperature, the typical Softub requires just 4 kw hours of electricity per day to stay 102° and ready to use. At 8¢ per kw hour, that would be just 32¢ per day, or \$9.60 per month.\*

Separate heating element is expensive to operate and replace. Monthly cost approx. \$20-\$40.

### THERMAL LID

All Softub spas include an insulated lid to save heat and water.

May be an accessory.

### JET POWER

Strategically placed, interchangeable hydrojets provide powerful hydrotherapy.

Hydrotherapy often uneven due to number and configuration of jets.

### SAFETY

A Softub plugs into a regular household outlet. There are no additional costs. It's cord mounted and comes with a Ground Fault Indicator.

Must use caution with slippery surface and hard corners. Dangerous hidden depths.

### COMFORT

Softub Spa's have a padded surface that's as comfortable as an easy chair.

Hard surface resembles concrete floor.

### SEATING

Go ahead and stretch out! Spacious, open barrier-free seating allows a variety of positions and activities.

Molded plastic "assigned" seats restrict activity and positioning.

### USAGE

A Softub is always hot and ready to use - 24 hours a day.

**The bottom line is that Softub is more convenient, more comfortable and less expensive!**
